

SOLAR SOLUTIONS BY ASEPL

- ▼ PROJECT/INSTALLATION TOOLS
- MANUFACTURING
- OPERATION & MAINTENANCE
- ◆ EDUCATION & R&D

ASEPL's been delivering technological solutions specializing in electrical & Electronic Test and Measurement equipment to industries, educational institutes, research and development organizations, civil aviation and military organizations from last 3 decades. ASEPL deliver tools that perform like champions in the most challenging utility scale solar environments. Solar technicians and managers can trust us on their need to be able to install and service equipment quickly, safely and efficiently.

Solar Solutions Products

Fluke Norma 6000 Series Portable Power Analyzers

Battery-powered design combined with a wideband frequency response for inverter drive systems, DC-AC & AC-DC power conversion systems & electric motors.

[Datasheet](#)

[More Details](#)

Fluke 393 FC True-rms Clamp Meter with iFlex

The 393 FC CAT III 1500 V True-rms Clamp Meter with iFlex is designed for technicians who work in dc environments up to 1500V solar arrays.

[Datasheet](#)

[More Details](#)

Fluke FLK-IRR1-SOL Solar Irradiance Meter

Make the critical measurements needed for installing, testing, maintaining, & reporting on solar panels or photovoltaic systems with one, easy-to-use tool.

[Datasheet](#)

[More Details](#)

Thermal Imager

Get the infrared cameras that are built on 65+ years of industrial experience. Each camera is built without compromise to the Fluke standard.

[Selection Guide](#)

[More Details](#)

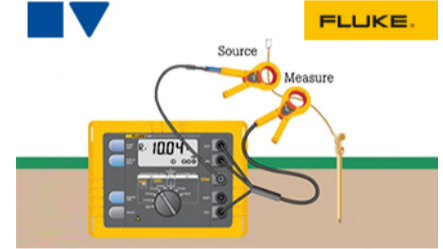

Fluke 1503 Insulation Resistance Meter

The Fluke 1503 is a great choice for basic residential & commercial electrical insulation testing. This rugged, compact tool fits in the palm of your hand.

[Datasheet](#)

[More Details](#)

Fluke 1625-2 GEO Earth Ground Tester

The Fluke 1625-2 earth ground tester measures earth ground loop resistances using only clamps, only stakes, or one clamp and stakes. Automatic Frequency Control (AFC) & Earth Resistivity Measurement too

[Datasheet](#)

[More Details](#)

Amprobe MO-100 Milliohm Meter

Diagnose potential failure with the MO-100, portable battery powered milliohm meter.

[Datasheet](#)

[More Details](#)

E4360 Series Modular Solar Array Simulators

The E4360 Modular Solar Array Simulator (SAS) is a dual output programmable dc power source that simulates the output characteristics of a solar array.

[Datasheet](#)

[More Details](#)

WE 1010 Soldering Station

Weller WE Line - the most powerful station in its class now in a new design. 1-channel-soldering station with WEP 70 soldering iron and PH 70 safety rest.

[Datasheet](#)

[More Details](#)

HT-670 Low Voltage Detector
AC/DC 600V with Sensitivity switch-over depending on the detection (bare conductor / insulated conductor), Audio-signaling & light emitting.

[Datasheet](#)

[More Details](#)

Shark® 250 Power and Energy Meter
The Shark® 250 advanced power & energy meter is designed for utility substation & critical industrial applications.

[Datasheet](#)
